David Spreadbury brought some concerns to the attention of the Select-Board. He is concerned and questioned about work being done on town roads that are near wetland areas. He inquired as to the protocol for work that is done near those areas. The Select- Board will review the requirements set forth by state laws and contact DES.

David also inquired about properties in town that are looking cluttered and wanted to know what action could the town take to get the properties in question cleaned up.

David also questioned why the town had the small section of the Blakslee Road paved at the intersection. Chairman Vic St Cyr explained that the paving was done to help stabilize the roadway and to eliminate the washboard effects from traffic and poor weather conditions.

Chairman Vic St Cyr asked that David put his request in writing to the Select-Board and the Board would review the request after the Board received more information from David.

The Chairman reported to the Board that there had been two complaints as to the condition of the roadway on Faraway Road. He also reported that he had driven over the road and it did need some attention. Board member Julia Simonds had also been contacted as to the condition of the road. Town Clerk Jessie Wentworth reported that the Road Agent had worked on Faraway Road today grading and fixing potholes. The work will continue tomorrow as well.
